Ideal ROR prospect

£ 3,950

Description

Blue is a well put together full thoroughbred by Beat Hollow out of a mare by the infamous Sadler's Wells. He retired from racing sound in 2023, he is eligible for all RoR competition and would really excel in any discipline with the correct education due to his laid back but workman like attitude. On the flat Blue is starting to really get to grips with all basic movements and has started to work in a more correct frame. He is still very green but the basics are there for someone to really put their own stamp on. He is never silly and loves his work. Blue has jumped around a few courses of fences and really comes to life, he is straightforward, unphased and has a good jumping technique. He has jumped some cross country fences at home and is always on the look out for the next obstacle. He would really suit a low level eventing home. Blue is good to hack alone and in company, and has seen farm traffic. He is good to load, catch, shoe etc. he has a really lovely temperament and will happily be someone's best friend. Good home sought after. No vices. £3950

Additional Category: Broodmares
